Youth & Worklife	I was born on 17 December 1977 in Solingen. When I was 5 years old, the first Dalmatian came into our family. My parents wanted a dog as soon as our house was finished. Coincidentally, neighbors had taken in a 5-year-old Dalmatian whose owner had died. Unfortunately, it did not work with the two existing dogs (German Shepherd and Rottweiler) and so they asked my parents, if they possibly want to take over the Dalmatian. So the white-brown "Greif" (Griffin) became the first dog in our family and my love for the Dalmatian was born! Greif was a special and clever character. He became 11.5 years old and unfortunately died of cancer. Years later, when I turned 18, it was my dearest wish to have a Dalmatian again. This dream came true, as on 17.12. 1995 the liver boy Olly-Oesel von der Falkenburg moved in. I started training as a digital and print media designer and was always able to combine work and dog very well. In 2001, I met my husband Thomas and the desire for a second Dalmatian became bigger as our relationship progressed. When I started studying as an Online Editor in 2004, the conditions were perfect for us to take a Dalmatian puppy and so in July 2004 the bitch Thalcida's Donna Oesella moved in with us.
Family and Hobbies	My husband Thomas and I got married in July 2006. We have no children. My hobbies include our Dalmatians, but also photography, traveling and painting.
First dog of my own	Apart from our first dog "Greif" in my childhood, my first own Dalmatian was the male "Olly-Oesel von der Falkenburg", whom we had to put to death in 2009 with a heavy heart at the age of 14.5 years.
Dalmatians	In the year 2002 we got more and more involved in the CDF (Club for Dalmatian Friends e.V.). With the arrival of our dog Donna, the desire to breed Dalmatians gradually came up. In 2009 our first litter was born from Thalcida's Donna-Oesella x Grower vom Benrader Feld. From this litter we have kept our male Antaro, who continues to fill and enrich our lives today.
Dogs at present	Today we have 2 Dalmatians: Antaro, born in 2009 and Choise, born in 2013.
Breeding activities	Our kennel was founded in 2008 when we registered the kennel name "Oesel's". So far we have bred only two litters. The A-litter was born on 10th September 2009. Our male Antaro was successful at shows and is now a German Youth Champion, German Champion and German Veteran Champion. In November 2013, we had to put to sleep Taro's mother Donna-Oesella due to a depleted foreign body and a multi-resistant germ. This year we imported a bitch from Norway - our Solidifies Certain Choise. Unfortunately, Choise was not able to breed due to hormonal disorders, so that the Oesel's B-litter was born in January 2016 from the mating Oesel's Amara-P-Torah x Farfalla Uiliam Arthur. Our offspring bitch C.I.B. Oesel's Bezaubernde Berta is now a multi-champion. She is the tribe bitch of the kennel "Bacardi Feeling" by Lucia and Peter Winterberg and makes us very proud.
Memberships in dog clubs	I'm member of the German Club „CDF – Club für Dalmatiner Freunde e.V.“ since 28.04.2002.
Functions	Over the years I was responsible for numerous Dalmatian Shows in our club. For several years I was Regional Director of RV South West in the CDF. Since 2008 I'm the webmaster of the CDF website and since 2012 I am the editor of our club magazine "Dalmatiner Journal". At the WAFDAL meeting in Prague in May 2015, I was then proposed as Webmaster for the new WAFDAL website and I accepted this job.

August 2019
